Election/Restrictions

1. Applicant's election with traverse of group I in the reply filed on 09/11/04 is acknowledged. The traversal is on the ground(s) that "...claim 13 does not expressly or implicitly set out any order for performing the act stated therein. Unless the application... Consequently claim 13 reads on mounting the high and low side switches in any order". This is found persuasive. Therefore, the restriction is withdrawn.

Specification

2. The abstract of the disclosure is objected to because the abstract should have been within the range of 50 to 150 words. Correction is required. See MPEP § 608.01(b).

References Cited

3. Wieloch (US 5,699,609), Bayerer (US 5,748,456), and Malkowski et al. (US 2002/0048161 A1) teach relating to power device comprising a housing, high and low DC voltage conductors,

and a capacitor. However, none of the reference(s) teaches the limitations as set forth in claims 1, 7, and 13.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

Please see paragraph 2 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
